

INDEX: NEWSLETTERS 179 to 191, 2004-2005

In accordance with the now established pattern, the index appears at the end of the subscription year. This year's index covers the thirteen-month period from October 2004 to October 2005 inclusive, taking up the one month gap for compilation which has hitherto occurred. Major studies are shown in bold type, and the indulgence of contributors is sought regarding the assessment of what qualifies as major.
